Our wells are also endangered by the blasting.  
I know a lady that had a lot of glass antiques that were broken by a Quarry blasting

3. Please use this space for additional comments or suggestions.

Every body that lives close to Quarry has all their homes cracked from the blasting.  
This could cause the Medina Dam to flood Castroville.  
The tracks are very dangerous. We had a man & wife and 2 children killed just 1/2 mile from our house.  
There are a lot of old people living along the road 267th
